7. Feedback System: -

Feed was collected from all stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

Feedback Obtained

College has a well-developed feedback system accommodating various stake holders including students, staff and parents to improve the performance and effectiveness of individuals and the institution as a whole. Feedback is taken at departmental level and institutional level in which teaching methods, college schedules and student assessment outcomes are discussed and improvement measures are taken. Students of all programs/courses are evaluated through class tests, mid-semester tests and by conducting extempore lectures and seminars. All internal examinations are conducted similar to the pattern of university examination. Question paper pattern and environment provided to students is similar as in final examination to build their confidence and enhance their learning outcomes. All the internal examination marks are analyzed by the concerned subject teacher and all efforts are made to clear their doubts and improve the outcomes. Remedial classes are also conducted for students in extra hours to improve their progress. The student feedback on faculty is obtained at the end of the chapter and term and about department at

the end of the semester. When feedback on any faculty member is not satisfactory, a structured "Performance Improvement Plan" is there in the college with the help of which the concerned faculty is counseled by the head of department to improve their performance. Periodic meetings of all faculty members are conducted to discuss teaching learning process, the curriculum, extra curriculum activities, and research and extension activities and to improve the overall environment of the institution. The decisions are then forwarded to departments for implementation. As an important stakeholder of the system, the Parents feedback is also obtained periodically and analyzed. Some of the parameters accommodated in the parents' feedback include quality of teaching, examination system, lab facilities, sports facilities, library and internet facilities, students discipline and transport etc. Students whose performance in the continuous assessment test is poor are counseled individually and their parents feedback is given due consideration.
