Solar Grid already installed in the college.

Solar Installation Date	Solar Capacity (kW)
23-12-2019	52.0000000

<u>LED bulbs</u> are energy-efficient and can produce light up to 90% more efficiently than traditional incandescent lighting. Their considerable lifespan makes them an excellent investment for college campus looking to reduce their energy usage and save money in the long run.

- LED Batten cool day light under the brand name 'Philips SlimLine NEXT' is a straight linear LED tube light and these lights have been installed in the teaching halls and labs.
- By using next generation LED bulbs and tube lights, the college is reducing its carbon footprint and thus, contributing towards a more sustainable future.
- Switching to LED lighting in classrooms, staff rooms and administrative workplaces has improved the quality of lighting and created a better learning and working environment for students and staff.

Our college's commitment to innovation and sustainability is reflected in our best practice of having IoT-based sensor lights installed from end-to-end in the corridor of the main building, next to the Principal's office. This cutting-edge technology not only enhances the safety and security of the building but also promotes energy efficiency and reduces our carbon footprint. The IoT-based sensor lights are equipped with motion sensors that detect human presence and automatically turn on and off, based on the movement in the corridor. This not only saves energy but also reduces the need for human intervention, making it a cost-effective solution. These lights are also beneficial for the safety and security of our students, staff, and visitors, as they ensure that the corridor is well-lit at all times. This innovative best practice is a testament to our college's commitment to sustainability, innovation, and excellence. We are proud to be at the forefront of this technology and will continue to explore ways to integrate technology into our practices to enhance the college experience for all.

Principal, SMHPSSCV, Govt. College, Sahibzada Ajit Singh Nagar

No.: 3183 Dated : 30.1. 2019

Principal Government College, Phase-VI, SAS Nagar, Puniab - 160055

Subject: Installation of Rooftop Solar Power Plant at Govt. College, Phase-VI, SAS Nagar.

Sir

Refer to your request for setting up of Solar Power Plant, it is informed that 52 kW Rooftop Solar Power Plant can be installed at the premises. The cost of installing 52 kW Rooftop Solar Power Plant under Net Metering is 24,95,116 + 5% service charges of PEDA. You are requested to deposit Rs. 26,19,872/- into PEDA account through cheque in favour of Punjab Energy Development Agency.

Thanking You.

To

Director, Punjab Energy Development Agency Chandigarh. No- 1980 Date- 01-02-19

Subject- Installation of Rooftop Solar Power Plant of Govt. College, Phase-VI, SAS Nagar

Sir,

With reference to your letter no- 3183 dated- 30-1-2019, it is submitted that our college is a government organization. The college received Rs. 25,00,000/- (Rs. 25 Lacs) under RUSA scheme for installation of Rooftop Power Solar Plant in the college premises. Your estimate for installation of 52 KW plant is Rs. 24,95,116 + 5% PEDA service charges. The college has no other funds to pay over and above the grant received for the project. Keeping in view the college being a government organization you are requested to wave off the service charges of 5% above the amount of Rs. 24,95,116/-. The cheque no $585 \circ 68$ dated 31-01-19 in favour of Punjab Energy Development Agency is enclosed herewith. You are requested to complete the installation of 52KW Solar Power Plant at the earliest possible.

Thanking you in anticipation,

Komal Korg

SUBJECT: - REGARDING SIGNING OF JCR FOR SOLAR PLANT.

SITE: - GOVT. COLLEGE, PHASE IV, SAS NAGAR, CHANDIGARH (52 KW SSOLAR PLANT).

Dear Madam,

0

This is with reference to above subject; we would like to inform you that we have installed solar plant (i.e. 52kW) in your premises and trail run has been done. As of now; net metering was pending due to pending submission of meter security fees from college in PSPCL. The same has been submitted in PSPCL yesterday dated 09.09.2019, further we will proceed for net metering ASAP. Once the bi-directional meter will be installed, final commissioning will be done in presence of college and

PEDA authority.

For net metering process joint commission report (JCR) is required. So, we request you to please sign the JCR of
